Analysis of Coal.

AUDIT OFFICE, OTTAWA, September 17, 1901.

SIR,—I have passed an Application No. 140 for \$3,740.31 in favour of John Heney & Son, on account of coal delivered for Ottawa Public Buildings.

The contract and specification contain the provision that quality must be equal to sample. Please let me know whether steps are taken, by chemical analysis or otherwise, to guard against a supply of inferior coal.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,

J. L. McDOUGALL, A.G.

Minister of Public Works.

AUDIT OFFICE, OTTAWA, January 25, 1902.

SIR,—Let me call your attention to my letter of September 17, 1901, asking for a description of any analytical tests which may have been made of the coal supplied to Ottawa Public Buildings.

We do not seem to have received an answer.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE, Minister of Public Works. J. L. McDOUGALL, A.G.

Clinton Public Building: Certificate for Site.

AUDIT OFFICE, OTTAWA, September 13, 1901.

SIR,—Let me acknowledge receipt of an application No. 120, from your department for \$2,500, in favour of the executors of the late Ann Moore, being purchase-price of site for Clinton Public Building.

The only document attached is an extract from Mr. L. F. Taylor's report, as follows:—'Without a doubt the most suitable site for the proposed building is Wiltsie's, marked 'A' on plan. It is situated at the junction of Victoria and King streets, and I would recommend that it be the one selected. I consider that \$2,200 would be a fair price, although the owners might not be inclined to take less than \$2,500 for it, which would be a reasonable figure.'

I do not understand the distinction between a 'fair price' and a 'reasonable price.' Please ask Mr. Taylor to explain. Under section 33 of the Audit Act we can pay only a 'fair and just price.'

I should like to see the full correspondence, and to have some information as to the dimensions of the lot.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Public Works, Dept. Ottawa, December 12, 1901.

Sir,—With reference to your letter of September 13 last, on the subject of our application No. 120, for \$2,500, in favour of the executors of the late Anne Moore, being the purchase-price of the site for the Clinton public building, and in which you

ask that Mr. Taylor explain the distinction between 'fair price' and 'reasonable price,' I am directed to state that Mr. Taylor has been asked to give the explanation you require, and the following is what Mr. Taylor says in the matter:—

'I think the owners of the property should be offered \$2,200, which would be a 'fair price, fair used in the sense of fairly good, but if the owners stand out for \$2,500, 'the government will be getting the property at a price which is fair and just.'

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, Secretary.

Public Works Dept., Ottawa, December 17, 1901.

SIR,—In reference to the letter of the Auditor General of September 13, I beg to say that when I examined the property at Clinton, intended for a site for a public building, I was under the impression that if the department could get the property for \$2,200 it would be getting it at a fair price, meaning that the government would be making a good transaction in obtaining that property at that figure. I observed further, however, that if the owner was not inclined to dispose of the site in question for less than \$2,500, then I was still of opinion that the department would not be paying too great a price for a property of that kind, which I thought worth that sum, if insisted upon.

I am, sir, your obedient servant,

The Secretary, Dept. Public Works.

L. FENNINGS TAYLOR.

Collingwood: Contract Let without Public Tender.

AUDIT OFFICE, OTTAWA, July 27, 1901.

SIR,—Let me acknowledge receipt of Application No. 40 for \$20,690 in favour of C. S. Boone, for dredging in Collingwood harbour.

I have seen in your department the Order in Council under which this work was

let, and would like to have a copy of it.

There does not appear, however, to be an explicit waiver of the general Order which prescribes advertising for all works in excess of \$5,000. Please have this omission rectified.

In the absence of a public call for tenders, it will be necessary to have the price of \$34,000 certified as 'fair and just.' Also please mention the approximate number of yards to be excavated under the contract.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

FREDERICK HAYTER, for A.G.

Public Works Dept., Ottawa, Aug. 8, 1901.

SIR,—In reply to your letter of the 27th ultimo, referring to our application No. 40 for \$20,690 in favour of Mr. C. S. Boone, for dredging in Collingwood harbour, I have the honour to inform you that a report to Council has been prepared to waive the Order in Council of March, 1880, which prescribes advertising for all works in excess of \$5,000, and to state that on future estimates the certificate 'fair and just," will appear, and also the approximate number of yards to be excavated under the contract, as required by you.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, Secy.

Port Elgin: Extras not Ordered in Writing.

AUDIT OFFICE, OTTAWA, January 10, 1901.

Sir,—Let me acknowledge receipt, from your department, of Application No. 257 for \$900 in favour of John Burns on account of final estimate for Port Elgin.

This estimate contains two items of extras, as follows:-

Placing corner braces on cribs, 72 at \$1.50......\$ 108 00 Placing posts in outer crib, 2 at \$4............................... 8 00

Please send me the documents described in section 5 of the contract form, namely, the engineer's order for these services, fixing the price before the work was done.

I am, sir, your obedient servant,

Hon, J. ISRAEL TARTE,

J. L. McDOUGALL, A.G.

Minister of Public Works.

Public Works Dept., Ottawa, January 15, 1901.

Dear Mr. McDougall,—Your letter of January 10 with reference to the final estimate for Port Elgin has come to hand. The small extras that have been carried out were ordered by the resident engineer, Mr. Gray, who, being on the spot, has thought proper to order these. I have no doubt he has given written instructions. We have communicated with him with a view to complying to your wishes. You will understand it is in the nature of things that extras of that kind may appear in nearly every work.

Sincerely yours,

The Auditor General.

J. ISRAEL TARTE.

Public Works Dept., Ottawa, January 29, 1901.

SIR,—Adverting to your letter of the 10th instant, acknowledging the receipt of our Application No. 257 for \$900 in favour of Mr. John Burns on account of final estimate for Port Elgin, Ont., stating that this estimate contains two items of extras, and asking to be supplied with the documents described in section 5 of the contract-form, namely, the engineer's order for these services, fixing the price before the work was done. I have the honour to inform you that our acting chief engineer to whom the matter was referred, reports as follows:—

'Mr. Gray informs me that the orders for extras were given, and their prices agreed

upon verbally, as the extra expenditure was small.

'I have issued a circular-letter to the resident engineers calling their attention to the provisions of clause 5 of the contract forms.'

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, Acting Sec.

Payments to Contractor and Sub-contractors for Same Work.

AUDIT OFFICE, OTTAWA, Dec. 27, 1901.

Sir,—Let me call your attention to cheque 84,712 of June 7, 1901, in favour of Albert Bouchard, François Bouchard, Emile Bouchard and Edouard Bouchard,

for \$3,036, for transportation of poles for telegraph line between Romaine and Chateau Bay.

From a letter by the deputy minister to the accountant, dated January 10, 1901, it appears that the same service was also paid for under contract with Mr. L. P. de Courval—the other \$3,036 being included in the sum of \$5,436 shown at the foot of page V—277 of my report of 1899-1900.

Please let me have a more complete description of the circumstances under which the double payment was made. What officer was responsible? Was the Justice Department consulted as to the government's liability for the second payment? What

steps have been taken to recover the over-payment from Mr. de Courval?

I notice in Mr. Gobeil's letter the following paragraph: 'However, those parties '(the Bouchards) have not been paid; and so far as I can find out, either Mr. de 'Courval has been paid in full, or else there are no funds available out of our appro'priation to make the payment.' What does this mean? Mr. de Courval was paid in full; and there was no balance of appropriation, whether he was or not.

I am, sir, your obedient servant,

Hon. J. Israël Tarte.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, January 10, 1901.

Dear Mr. Kingston,—In the course of the spring of 1900, by order of the minister, I made an agreement with the Captains Bouchard, of Quebec, for the transportation on the Labrador coast of certain poles which had been purchased for the North Shore telegraph line, in the St. Lawrence, at the rate of \$1 per pole. Those poles were duly transported by those gentlemen. Subsequently, a contract was entered into with Mr. de Courval for the transportation of the balance of the poles, and it was understood with Mr. de Courval that he would take to his charge the payment due to the Captains Bouchard, and I believe Mr. Keeley made a note to that effect. However, those parties have not been paid, and so far as I can find out, either Mr. de Courval has been paid in full, or else there are no funds available out of our appropriation to make the payment. Be it as it may, however, it is desirable that you should at once ascertain from Mr. Keeley what is the amount due to the Captains Bouchard, and write a certificate of acknowledgment of indebtedness by the department, that I can send to those parties, and of which they can make use at the bank if they so desire. I will be obliged if all expedition is made in the settlement of this matter.

Yours very truly,

A. G. KINGSTON, Esq., Accountant.

A. GOBEIL, D.M.

Public Works Dept., Ottawa, January 20, 1902.

DEAR MR. McDougall,—I am sorry I could not give my attention sooner to your letter of December 27, in reference to cheque No. 84,712, dated June 7, 1901. As soon as my deputy minister is back, I will take the matter up. In the meantime, I will try to get some explanation from the accountant.

Yours truly,

The Auditor General.

J. ISRAEL TARTE.

Yukon Vouchers to be Examined by Accountant in June, 1901.

AUDIT OFFICE, OTTAWA, February 1, 1901.

DEAR MR. TARTE,—Let me point out that the delays and inaccuracies by your Accountant's Branch in furnishing necessary statements and vouchers in connection with the accounts have been the cause of much inconvenience and loss of time in the preparation of the report which is now about to be submitted to Parliament, and have been hurtful in other respects.

As illustrations I may mention:

1st. That most of the vouchers of Mr. Charleson's expenditure in the Yukon made between March and October, 1899, only reached this office about December 20 1900, and then, after drawing your special attention to the delay. These vouchers, as we now learn on good authority, were in your department before Mr. Charlson left for the Yukon in the early spring of 1900. As it was, these vouchers never were examined in the Accountant's Branch as is required under section 42 of the Audit Act, and as they evidently should have been even if there was no Audit Act.

2nd. We have not received any departmental cheques of the current fiscal year. 3rd. The statements of deposits with deposit receipts have come to us irregularly, thus postponing the credit to the Receiver-General.

I desire to have a clear understanding with your department as to the respective times when the various statements and vouchers are to be furnished this office. I need not say that regularity in this respect will be as conducive to satisfaction in your department as in this office.

There is no intention to indicate want of zeal or intelligence on the part of any particular employee in the Public Works Department in what I feel called upon to say. Whether the unsatisfactory result comes from want of a sufficient number of assistants to the accountant or from their incapacity, must of course be determined inside of the department. I have seen much of the accountant himself in business relations and am sure that he is both earnest and capable.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Public Works Dept., Ottawa, February 7, 1901.

Sir,—I have the honour to acknowledge the receipt of your letter, dated the 1st instant, calling attention to delays in furnishing statements and vouchers in connection with the accounts of this department.

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, Acting Sec.

AUDIT OFFICE, OTTAWA, March 12, 1901.

DEAR MR. TARTE,—I have a better opportunity now to go into the examination of the Charleson and Taché accounts than I will have in the near future. I wish that you would instruct Mr. Kingston to do at once what is required in the department in connection with accounts, and then forward them to this office.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Public Works Dept., March 14, 1901.

MY DEAR MR. McDougall,—Instruction will be given to Mr. Kingston to comply with your request, as per your letter of March 12.

I am, sir, your obedient servant,

The Auditor General.

J. ISRAEL TARTE.

Yukon Vouchers to be Audited by Accountant in June, 1901.

Public Works Dept., May 30, 1901.

Sir,—The accountant of the department has sent over to your department this morning, as promised, the vouchers for the expenditure on the Quesnelle-Atlin telegraph line, from its inception to the month of November last (1900). As I told you yesterday, I have arranged with the accountant of the department, Mr. Kingston, that he shall at once, and personally, undertake the classification of the vouchers in our hands for the Bennett-Dawson line, and prosecute the work without delay, in order that they may be placed in your hands as quickly as possible. This will permit of Mr. Hardy leaving for Vancouver to join Mr. Charleson, and also, I hope, of your issuing at once the credit of \$11,000 applied for yesterday by the department on behalf of Messrs. Charleson and Hardy.

Mr. Charleson has wired me yesterday that he feared difficulties on account of delay in paying the men, and part of the credit asked for is to be applied for that purpose.

I am, sir, your obedient servant,

The Auditor General.

A. GOBEIL, D.M.

Mr. Hardy wanted in Ottawa until Examination is Completed.

AUDIT OFFICE, OTTAWA, April 10, 1901.

Dear Mr. Tarte,—I have had some conversation with Mr. Kingston and Mr. Hardy about the Charleson accounts. I think it is important that Mr. Hardy should not leave Ottawa until there is a full adjustment of these accounts. I am glad to know that he is making considerable progress with them.

Then, whatever has been done in connection with the stores account, Mr. Gilchen, or whoever is store-keeper for the future, should take at once a full inventory of the stores on hand and be able to show at the end of the season where they, as well as any additions which have been made to the stores, have gone.

I should like to have a line from you indicating that you agree with me in these

views.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 25, 1901.

Sir,—I have been informed this morning by Mr. Hardy of your department that, notwithstanding your intention that he should not leave for the coast until after an

adjustment of the old Charleson accounts, your minister has instructed him to leave on Monday next, the accounts not having been adjusted. I presume that there is some misunderstanding by him.

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

Conditions of Yukon Letter of Credit.

Public Works Dept., Ottawa, May 28, 1901.

DEAR Mr. McDougall,—I require a credit of eleven thousand dollars (\$11,000) to be issued to Messrs. Charleson & Hardy to make immediate and urgent payments, mainly wages.

I have decided to send an able and experienced accountant and business man to have a thorough inspection of the books, stores, &c., the whole situation, so as to control and supplement the information that we have now in our possession. Indeed, I would be glad if you would send one of your men to act jointly with the man appointed by my department.

Believe me, truly yours,

The Auditor General.

J. ISRAEL TARTE.

AUDIT OFFICE, OTTAWA, June 3, 1901.

SIR,—Let me acknowledge receipt of your letter suggesting that one of the Audit officials accompany the accountant whom you propose sending to the Yukon.

I regret being unable at this season to detach any one from the preparation of the annual report.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,
Minister of Public Works.

J. L. McDOUGALL, A.G.

Conditions of Yukon Letter-of-Credit.

AUDIT OFFICE, OTTAWA, May 30, 1901.

SIR,—With reference to the Yukon telegraph expenditure, I wish that you would draw the attention of Messrs. Charleson & Hardy to the advisability of keeping in mind the following directions, as well as any other which may occur to yourself:—

1. The larger accounts, which can be, without inconvenience to the creditors, paid by departmental cheque, should be so paid.

2. With reference to other accounts, those which can be paid by letter-of-credit cheque should be paid in that way.

3. With reference to cash disbursements, they should be confined mainly to petty contingencies, travelling expenses and men's wages.

Regarding both travelling expenses and men's wages, the accounts should be made up at the end of each trip, the necessary dates and statements, with accounts and vouchers furnished, and the unexpended balances refunded.

4. As required by the 33rd section of the Audit Act, evidence should be given that the goods charged have been received, and that the prices charged are fair and just.

- 5. At the end of each month, a list of cheques drawn against the credit should be made out and forwarded to the Department of Public Works to enable the department to repay the bank.
- 6. At the end of the month there should also be furnished all vouchers which have been received during the month, numbered to show their connection with the sums for which they are vouchers.
- 7. There should also be an explanation showing the reason for the absence of vouchers for any payment during the season which has not been previously accounted for.

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, June 13, 1901.

Sir,—I have the honour to acknowledge the receipt of your letter dated the 30th ultimo, referring to the Yukon telegraph expenditure, and stating that you wish that we draw the attention of Messrs. Charleson & Hardy to the advisability of keeping in mind the directions therein mentioned, as well as any other which may occur to the deputy minister.

I am, sir, your obedient servant,

The Auditor General.

FRED. GELINAS, Secretary.

Cheques for year 1901-2 drawn before July 1, 1901.

AUDIT OFFICE, OTTAWA, August 20, 1901.

SIR,—Let me acknowledge receipt, from your department, of application No. 67 infavour of the Canadian Bank of Commerce in repayment of cheques amounting to \$5,615.16 drawn by Messrs. Charleson & Hardy between June 7 and 21, 1901.

The application is marked as chargeable to the vote in 1901-2 for 'Telegraph Line

between Port Simpson and Hazelton.'

Please describe the circumstances under which Messrs. Charleson & Hardy drew cheques in June, to be charged to the coming fiscal year, which was not to begin until July 1.

I notice that some of the services are 'wages from March to June.'

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

FREDERICK HAYTER, for A.G.

NOTE.-No answer has been received to this letter.-Jan. 24, 1902, J. L. McD.

Large Balances due to Messrs. Rochester and Trodden.

AUDIT OFFICE, OTTAWA, July 2, 1901.

SIR,—In a memorandum by Mr. Kingston concerning Yukon expenditure, I notice two sums shown as still due, namely, \$11,061.83 to Jas. Trodden, and \$22,467.13 to J. Y. Rochester.

As these are government officers on limited salaries, it does not appear probable that they advanced their own money. If the department made any guarantees, I should like to get all particulars, including chaques and statements of chaques. Il is quite

understood that I have no power to recognize in any way the system of drawing money through a bank without the existence of an appropriation and the usual letter of credit, signed by the Finance Department and this office. It, however, seems proper that I should assist in every way a department which may have made an arrangement which I was unable to authorize.

I am, sir, your obedient servant,

The Deputy Minister, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, January 25, 1902.

SIR,—Let me call your attention to my letter of July 2, 1901, asking for an explanation of the banking transactions by which Messrs Rochester & Trodden were enabled to become government creditors to the extent of \$22,467.13, and \$11,061.83, respectively.

I do not find that any answer has been received from you.

I am, sir, your obedient servant,

Hon. J. ISRAEL TARTE,

J. I. McDOUGALL, A.G.

Minister of Public Works.

Defective Certificates on Yukon Vouchers.

AUDIT OFFICE, OTTAWA, July 3, 1901.

SIR,—I have received from the Public Works Department an application to pay to the Yukon local revenue account the sum of \$13,759.06 on account of a bridge over the Klondike river.

The vouchers in support of this application have been collated, and are found to be deficient with respect to certificates.

Section 33 of the Audit Act provides that, in addition to any other certificates, all vouchers shall be certified 'work done,' or 'materials received,' as the case may be, and 'prices according to contract,' or 'prices fair and just,' the latter being for use when the contract has not been made under advertised tender.

The two bills from the Dominion Bridge Company are marked 'materials received'; the other certificates are all missing. Freight can be certified 'work done,' and 'price fair and just.'

The certificates should in all cases be made by officers having personal knowledge of the facts.

I am, sir, your obedient servant,

Mr. Commissioner Ross, Dawson, Y.T.

J. L. McDOUGALL, A.G.

Dawson, Y.T., July 17, 1901.

SIR,—I have your letter of the 3rd July respecting certain accounts which have been forwarded to you by the Department of Public Works, looking towards payment to the Yukon local revenue account of moneys expended by the Yukon Council in the building of a bridge over the Klondike river.

You point out that section 33 of the Audit Act has not been complied with, in that vouchers have not been properly certified to.

As to the freight bills, there was no reason why they should not have been certified as 'prices fair and just,' for, although the freight rates may be very high here, still there was no opportunity to bring the bridge in except through the one transportation company.

As for the account for the bridge delivered at Vancouver, all I can say is that from my own experience in purchasing many structures of this kind in the Territories, I am led to believe that the cost of this bridge at Vancouver does not seem to be out of the way.

I do not understand why Mr. Ogilvie, when the accounts were sent down, did not himself certify that the prices were fair and just. I can assure you that any accounts in future going down from this department will bear the proper certificates in every case, as I quite understand that you must have these certificates under the Audit Act before the accounts can be paid.

I am, sir, your obedient servant,

The Auditor General.

J. H. ROSS, Com'r.

Re Telegraph Revenue, Bennett-Dawson Line.

AUDIT OFFICE, OTTAWA, Nov. 26, 1901.

Sir,—I have to call your attention to the delay in depositing the revenue of the Bennett-Dawson line remaining after the payment of the maintenance accounts.

In acquittance of the July return a deposit was made August 11 of \$1,031.50, and another on October 1 of \$2.275.79.

In acquittance of the October return the following deposits were made: December 22 of \$158.29; January 5, \$1,554.78, and January 7, \$472.17.

In acquittance of the June 1901, return the following deposits were made: July 11, \$167.79; July 24, \$3,695.60, and August 15, part of deposit of \$3,000, \$1,249.64.

I cannot conceive of any explanation for some of the delays in making the deposits of the revenue, particularly of those for July and October. The delays may be either with those who use the line or with the collecting officers. I confess that I feel very anxious to get an explanation of these constantly recurring delays.

The total revenue of June appertaining to the government was \$8,668.37. About 65 per cent of this was collected at Dawson, 15 per cent at White Horse, and 13 per cent at Bennett. Is there any reason why the operators at these offices cannot comply with the Treasury regulations and deposit every day when the receipts amount to \$25?

I understand that you have instructed the superintendent not to pay maintenance accounts out of the receipts, but in future to deposit his gross receipts. This will enable the superintendent to more strictly comply with the regulations, which he should be required to do.

It would simplify the accounts if your officers in the Yukon and the Mounted Police officials would pay their telegraph accounts instead of having them percolate through the department.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Nov. 26, 1901.

Sir,—I am without any reply to my letter of September 17 last, in reference to the delay in forwarding the returns of the Bennett-Dawson line.

In the adjustment of the returns up to June 30 last, the following items, claimed by the superintendent, have not come to account:—

 Return of June, 1900—Interior Dept., telegraph account....
 \$10 35

 " January, 1901—J. C. Taché, "
 24 75

 " February, 1901—J. C. Taché, "
 13 55

 " March, 1901—J. C. Taché, "
 8 80

 " May, 1901—J. C. Taché, "
 63 42

And the following items have been deducted from the maintenance accounts claimed: --

The following deposits that have come to account are not claimed in the superintendent's returns:—

May 15, 1900—Part deposit of \$4,799.43 at Dawson	\$ 0	43
January 22, 1901—Part deposit of \$1,816.92 at Dawson	16	70
April 22, 1901—Deposit at Dawson	(a) 50	00
July 12, 1901—Part deposit of \$278.36 at Ottawa	11	35
August 7, 1901—Deposit at Ottawa	123	88
Also entry warrant as per your application of May 7,		
1901 (a) 1,313	23

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

(a) Mr. Crean, Superintendent, states that these items were credited in error to Revenue.

AUDIT OFFICE, OTTAWA, December 17, 1901.

SIR,—I have written you at the following dates:—October 25, 1900, March 14, 1901, April 15, 1901, September 17, 1901, November 26, 1901 (two letters), in reference and that the matter had been brought to the attention of the Honourable the Minister. Dawson Line. The only reply I received is your letter of April 20, 1901, stating that you had telegraphed the superintendent to send in his returns without further delay; and that the matter had been brought to the attention of the Honourable the Minister.

I received yesterday from Mr. Keeley, summaries of the returns for July and August last, and I regret to say they are not at all satisfactory. The gross revenue of July was over \$9,000. Of this amount over \$5,500 accrued at Dawson, \$1,400 at Bennett, and \$1,260 at White Horse. If the regulations of the Treasury Board had been carried out the collections from day to day would have been deposited as collected, and the balance for the month, shortly after its close. The deposits made were as follows: August 7th, \$1,750.36; 13th, \$195.44; 21st, \$2,245.79; September 5th, \$2,000, and September 23rd, \$872.96. The deposits for the August revenue were equally late.

By this practice there is nothing to prevent the revenue collected during any one month from being used in making good the revenue of the previous month.

I submit that immediate action should be taken with the view of having this revenue deposited more promptly.

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. PUBLIC WORKS, OTTAWA, December 19, 1901.

My Dear Mr. McDougall,—The secretary of my department has shown me your letter of December 17. We have, over and over again, given positive instructions to the superintendent of our telegraph system, in reference to the returns of the revenue. Mr. Crean is on his way to Ottawa. He will be here within a week, I hope. I need not tell you that I will make it a point to have the case thoroughly inquired into. I am not in a position to say more to-day—except, perhaps, that the conditions in that part of the country are so different from others, that, I suppose, there must be reasons for the delays that have taken place. However, we will know all about it without great additional delay.

Truly yours,

J. ISRAEL TARTE.

Re Arrears Due for Rent of Building at Windsor, Ont.

AUDIT OFFICE, OTTAWA, April 24, 1901.

SIR,—On the 11th inst., it was stated in the House of Commons by the Minister of Agriculture, in the absence of the Minister of Public Works, that Mr. Aurele Pacaud owed \$210 for the rent of a building at Windsor, Ont.

This is the first intimation of the transaction that has reached this office. I have to ask that, in future information should at once be furnished of any arrangement made by your department from which revenue may be expected to accrue.

Please explain why you did not report this lessee in arrears in reply to my letters of October 6 and November 12 last, asking for all arrears due to your department?

Why was Mr. Pacaud paid \$36.50 for advertisements by your department during 1899-1900, and he in arrears for rent at the same time?

What action has been now taken to recover the amount due?

I am, sir, your obedient servant,

The Secretary, Public Works Dept.

J. L. McDOUGALL, A.G.

PUBLIC WORKS DEPT., OTTAWA, May 21, 1901.

SIR,—Adverting to your letter of the 24th ultimo, relative to the amount due by Mr. Aurèle Pacaud for the rent of a building at Windsor, Ont., I have the honour to say that our Collector of Revenue is making a strong attempt to collect the arrears due by Mr. Pacaud.

I am, sir, your obedient servant,

The Auditor General.

JOS. R. ROY, Acting Sec.

Re Wharfs and Piers.

AUDIT OFFICE, OTTAWA, November 12, 1901.

SIR,—I have to call your attention to the correspondence of March, 1900, in reference to the transfer of certain wharfs to the Department of Marine and Fisheries (See Audit Report, 1899-1900, pages P—178-179-180 and 181).

Have any of these wharfs been since transferred? Has your department collected wharfage at any of them, or is it the practice to allow the public free use of a wharf till transferred to Department of Marine and Fisheries?

I am, sir, your obedient servant,

The Deputy Minister, Public Works.

J. L. MoDOUGALL, A.G.
